

West Village 1 construction update
16 December 2016

Practical completion of site preparation works

It is with great pleasure that we announce site preparation works for West Village Stage 1, including the work on Wilson Street, are now substantially complete.

West Village would like to thank the local community for their patience and assistance during this crucial first stage of development.

Wrap-up works

The completion of the excavation for the first two residential towers and line-marking on the new, pothole-free Wilson Street bring to a close the site preparation works.

Some minor work will continue over the festive season to prepare for construction of the buildings in the New Year.

Work hours and construction management

The site will remain active over the Christmas/New Year period. Work hours will continue to be 6:30am to 6:30pm Monday to Saturday.

Management plans for the potential for dust and noise impacts on surrounding homes and businesses are still in place.

Please call the Construction Information Line – 07 3096 0066 – if you have any queries.

We wish you and your family a happy and safe holiday period.
